FELVERA
DOG TREATS

ABOUT US

Our company is established to produce organic and healthy dog treats. The foundation of our company is based on more than 10 years of knowledge and experience. We manage all processes in-house, from raw material procurement to final product manufacturing.
We have achieved a strong position in the global market by exporting to 14 countries in Europe and the Middle East, with a primary focus on the United States and Canada.

- Prioritizing quality and naturalness in the production of organic and healthy pet foods
- Leading the sector with an innovative and eco-friendly production approach
- Developing high-nutrient products that contribute to pet health
- Dedicated to sustainable growth as a reliable Turkish brand in local and international markets

Our company remains resolutely committed to improving the quality of life for our loyal friends and adding value t the industry.

Quality and Food Safety: Our Global Standards

We are fully aware of the responsibility that comes with exporting to the world's most competitive and highly-regulated markets, particularly the United States and Canada. Hygiene and food safety are our most fundamental, non-negotiable priorities.

Modern Production Facility

Our factory, located Izmir Menemen Free Zone, is designed to be fully compliant with international food production protocols (HACCP, ISO, etc.) and is equipped with state-of-the-art systems.

Rigorous Control and Traceability

Our entire process, from raw material reception to production and packaging, is meticulously supervised by expert veterinarians and food engineers. Thanks to our "farm to package" full traceability policy, the source of every product is transparently documented.

Natural and Trusted Ingredients

We use only the highest quality raw materials, procured from reliable and sustainable sources. Our products contain no artificial colorants, preservatives, or chemical additives.
